

Dimithry Victor

Dimithry Victor (b. 2000) has been a dedicated artist from a young age. Inspired by cartoons and comic books, he initially developed a love for character creation, but as he matured, he began to infuse his own experiences and emotions into his art. This drive for self-expression has solidified his path as a professional artist.

A native of Haiti, Victor relocated to the United States as a child, bringing with him a wealth of cultural experiences from his upbringing in Miami. These experiences continue to inspire and inform his work, which seeks to shed light on the experiences of marginalized communities.

Drawing influence from the great expressionist masters, Victor's work seamlessly blends realism with unique and often humorous content, utilizing a bright color palette and strong narrative to create captivating works of art. Spanning from classical portrait setups to quirkier narrative pieces, his work seamlessly blends elements of portraiture, cartoons, and abstraction to create a visual representation of non-physical emotional states.

Through his attention to detail, texture, and color, he aims to create a sense of visual empathy between the viewers and the painted figures. Victor's works have been showcased globally, with exhibitions in cities such as London, New York, Miami, and more.
